

## Quality

PM Group is an international professional services company, providing multi-disciplinary architectural and engineering design, project management and consultancy services across a variety of industrial, commercial, public and institutional sectors.

PM Group is committed to providing high quality services and will consistently deliver this by:

- Having a defined set of Quality Objectives that are reviewed annually.
- Using effective Management Systems to ensure that we deliver on established safety, cost, schedule and quality performance targets on all of our projects.
- Effectively using recruitment, training, management controls and employee feedback to ensure our work is aligned with the ISO 9001:2015 principles and meets or exceeds all contractual commitments and legislative requirements.

We are committed to reviewing our quality systems annually, taking into account current and potential future business needs.

*PM Group Quality Policy Doc no. 010-PL-001 is available to all personnel on the company intranet. The main requirements are summarised above.*
