Process Safety

Technical expertise and compliance support
for new and existing facilities.

The PM Group difference

We are truly committed to the success of your business across a range of sectors including Biopharmaceutical, Energy, Food and Beverage and Chemical.

Expertise

Our in house specialists have in-depth Process Safety experience.

Partnership

Working in conjunction with your team to succeed.

Capability

Whatever the scale and location of your project, we can deliver.

We can make your process safer

Handling hazardous substances requires significant levels of integrity of operating systems and processes. Applying good design principles, engineering and operating practices, will make your operation safer.

Full lifecycle cost effective approach

Design change can incur great cost as projects progress. A strategy of hazard identification and assessment at each stage offers efficiency and cost benefits.

Why Process Safety?

- To ensure a safe workplace and project execution.
- Compliance with legal and local authority requirements.
- Alignment with company standards, international guidelines and best practice.
- Risk reduction to avoid financial and reputational damage.
- Insurance requirements to minimise premium.

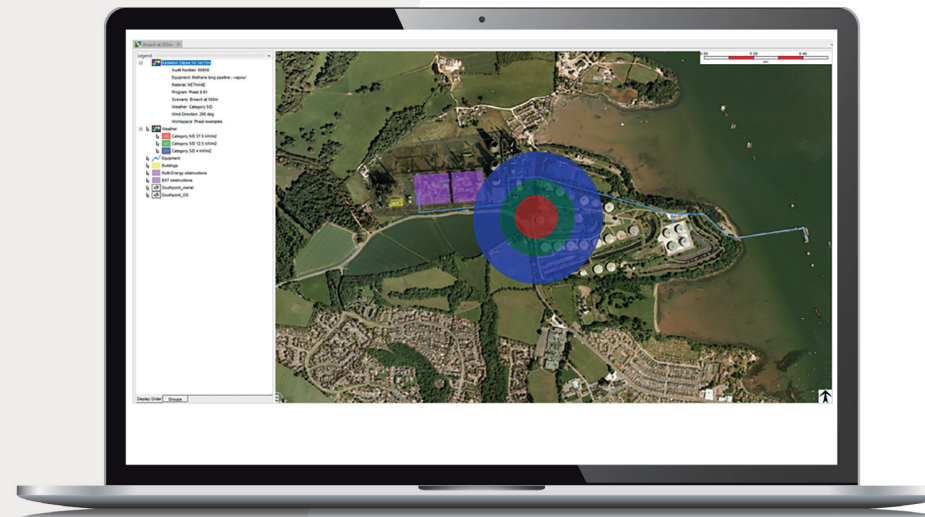

Process Safety Dedicated Services

Our specialist teams deliver integrated, regulatory compliant, cost-effective solutions.

- Process Hazard Analysis.
- Layer of Protection Analysis (LOPA) / Safety Integrity Level (SIL) Reviews.
- ATEX / DSEAR - Hazardous Area Classification. Explosion Protection Document (EPD).
- Consequence Modelling.
- Quantitative Risk Assessment.
- Occupied Building Risk Assessment.
- COMAH/Seveso: Major Accident Prevention Policy & Safety Report.
- Pressure Relief Device Design.
